Exhibit Graphics, CDs/DVDs & Print Production Services

OMNISTUDIO is a communications design firm specializing in print and online solutions for public interest groups, government agencies, and trade associations.

To support our clients' creative initiatives, Omni provides additional services in the areas of technical production. These services are highlighted in the following pages.

Terry Amthor, Omni's prepress manager, leads the department that produces this work. If you have questions about the services described in this brochure, please contact Terry at: 202-464-3055 or tamthor@omnistudio.com.

LARGE FORMAT COLOR GRAPHICS

Whether short-run fine art prints or multiple posters, OmniStudio's printers deliver a combination of production speed and quality unmatched by any other printers on the market. Amazing photo quality, continuous tones, and a wide color gamut are achieved using HP color layering and six ink colors. We can output up to 60" wide and up to 300' long on-site and offer the equipment and resources to handle any output size and media application.

EXHIBITS AND DISPLAYS

For trade shows, conferences, and speaking events, OmniStudio offers a complete line of pop-up backdrops and portable display options, both the hardware and graphics. Easy to carry, easy to set up and easy to change graphics, these displays provide flexibility and impact. We have a solution for your budget and display needs.

FINISHING

Our mounting and laminating department will assist in providing lasting durability for your small- and large-format print projects. We offer both hot and cold (pressure-sensitive) laminating capabilities and have experience with a wide range of display applications and mounting substrates. Using either our on-site equipment or off-site resources, we can mount up to 60" wide with virtually any length. We offer a wide range of laminates to protect your graphic while maximizing its impact. All of our laminates offer UV protection and finishes include matte, luster, glossy, dry-erase, and magnetic backing.

IMAGE CAPTURE AND MANIPULATION

OmniStudio's Nexscan F4100 is the latest generation of Heidelberg's high-end color scanners. With Nexscan's Direct Capture Technology we can deliver excellent scanning quality, up to 5080 dpi from reflective or transparent originals up to 12" x 18." Whether resurrecting your family photographs or manipulating fashion and advertising photos, our digital retouching team uses the latest tools and techniques to bring the most out of your photos.

CD/DVD DUPLICATION

Omni also offers a full complement of digital document resources, including high-speed scanning, optical character recognition (OCR), indexing, and online archiving services. Our CD/DVD duplication services can handle any size job. The fully-automated CopyMaster II recorder's 6 drives and 1000 disk capacity provide speed and reliability in a 24/7 production schedule. We can print directly on disks, incorporating stunning full color with up to 4800 dpi to produce professionally printed disks using high-resolution text, graphics and even photos.

MAPS, CHARTS, PDFS AND MORE

In addition to Omni's creative publication, marketing, and advertising design services, our production team provides technical skills to create complex maps and graphs, 508-compliant PDFs, PowerPoint presentations, fillable PDF forms and DVD splash pages.

EXHIBITS AND DISPLAYS

For trade shows, conferences, and speaking events, OmniStudio offers a complete line of pop-up backdrops and display options. Easy to carry, easy to set up and easy to change graphics, these displays provide flexibility and impact. We have a solution for your budget and display needs.

On this page we show examples and costs of displays that are popular with our customers. In addition to these, we have extensive resources for other models. Omni display experts can help you choose the best model to meet your needs. We can also supply and mount new graphics as your needs change.

Possible Applications:

- Trade shows
- Public events
- Retail applications
- Point of Purchase (POP)
- Hospitality environments
- Conventions
- Meetings
- Sports venues
- And much more

Graphic panel for this unit	\$432*

Unit Price large (double-sided):

33.5" wide x 84" tall	\$450
Graphic panels for this unit	\$820*

* Please note: design services are additional

On this page, we feature a new, environmentally-friendly retractable banner stand, THE PANDA

FEATURES & BENEFITS:

- Sturdy and practical
- Fabricated from 90% renewable resources
- First environmentally friendly banner stand
- Precision-engineered retraction system
- Easy to set up and break down
- Clean and streamlined design that maximizes visual impact
- Comes with a compact padded cotton carrying bag

INTRODUCING THE PANDA

The bamboo retractable banner stand—an earth-friendly alternative to conventional display solutions for the exhibit, display and graphics markets. Primarily constructed of bamboo, the Panda Stand™ is the world's first environmentally friendly retractable banner stand. The unit is made from 90% renewable resources with a low impact agro-forestry product that offers a natural choice to the increasing 'green orientation' of business.

This sturdy and premium portable display unit offers the same high performance attributes as other retractable banner stands. Its precision-engineered retraction system makes it easy and quick to set up virtually anywhere—simply unwind the graphic stored in the bamboo base and insert the support pole. Designed to maximize visual impact, the Panda Stand's eco-friendly style will help to emphasize any message while contributing to a greener planet. The highly durable banner stand rewinds back into the base within seconds and is easily transported by one person.

Why bamboo?

- Fastest growing plant on earth with increasing use as a versatile industrial material.
- Rapid maturity cycle of 3–4 years with the viability to replace wood or metal components.
- Provides a critical component in the balance of oxygen and carbon dioxide in the atmosphere.

Please note that the variety of bamboo used in this product is plantation grown and not part of the Giant Panda's diet.

Unit Size: 31.5" wide x 78" tall

Unit Price:

Exhibit and carrying case	\$250.00
Graphic panel for this unit	\$422.50*

* Please note: design services are additional

Omni presents another new offering, THE ALLIGATOR.

Includes:

- Aluminum base
- Snap-on top light
- Telescopic pole
- One snap-lock top hanger
- A cushioned fabric hard bag with thick padding at both ends, providing strong protection.

INTRODUCING THE ALLIGATOR

The first 'frameless' graphic image in a retractable banner. The viewer sees only the graphic message—not the support hardware.

- Retractable banner stand
- Frameless, height-adjustable banner
- Stand shows no hardware from the front

Precision-engineered retraction system provides smoother, more reliable graphic rolling and tensioning. Tension level is easily justified and reset by end user. Best of all, changing graphics is effortless!

Combine two or three Alligator banner stands side by side to create an economical backwall.

Each Unit Size: 32.5" wide x 32-78" tall (height is adjustable), three units shown here

Unit Price:

Exhibit display	\$375.00
Graphic panels for this unit	\$422.50*

* Please note: design services are additional
